A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure any disease for which a reputable physician would prescribe it. Physicians recognize iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the most important factor in successful medical practice. It is, however, a remarkable fact that prior to the discovery of BROWN'S IRON BITTERS no perfect, satisfactory iron combination had ever been found. BROWN'S IRON BITTERS does not injure the stomach, produce constipation, or all other iron medicines do. BROWN'S IRON BITTERS cures Indigestion, Biliousness, Weakness, Dyspepsia, Malaria, Chills and Fevers, Tired Feeling, General Debility, Pain in the Side, Back or Limbs, Headache and Neuralgia—for all these ailments iron is prescribed daily. BROWN'S IRON BITTERS, however, does not cure in a minute. Like all other thorough medicines, it acts slowly. When taken by men the first symptom of benefit is renewed energy. The muscles then become firmer, the digestion improves, the bowels are active. In women the effect is usually more rapid and marked. The eyes begin to clear and brighten; the skin clears up; healthy color comes to the cheeks; nervousness disappears; functional derangements become regular, and if a nursing mother, abundant nutriment is supplied for the child. Remember Brown's Iron Bitters is the ONLY iron medicine that is not injurious. Physicians and Druggists recommend it. The Genuine has Trade Mark and crossed red lines on wrapper. TAKE NO OTHER.

AMONG BREADWINNERS.

BISHOP RYAN ON LABOR AND CAPITAL.

A Notable Pastoral Letter Read at Buffalo—The Great Strike at New York Threatens to Grow—The Pinkertons Denounced—Trouble in Cuba—Notes.

BUFFALO, N. Y., Jan. 25.—The Right Rev. Stephen Ryan, Catholic bishop of Buffalo, has written a very strong pastoral letter, which was read Sunday in all the churches of the diocese.

"Labor and capital," says the bishop, "the working classes and the moneyed aristocracy, may look for even handed and impartial treatment at the hands of God's Church; yet no one can fail to see where sympathy lies or to whom her heart goes out in tenderest affection. Honest and industrious work, the bone and sinew of the nation, the Church blesses you; owns your right to combine peaceably to secure the amelioration of your condition, an equitable share of the profits of your hard labor, and just remuneration for your daily toil, to maintain yourselves and families in decency and reasonable competency, in homes where cherished children may find the comfort of their leisure hours."

"If there shall be any condemnation it can only come through your own suicidal folly, because of the unjust principles you adopt, the unlawful ends you propose to yourselves or the immoral means you use to attain your object. But should you, in spite of a warning voice, fly in the face of Divine law, aim a blow at society, be carried away by anti-social, anarchical, immoral and irreligious theories, no matter by whom propounded or by whom defended, you certainly may expect the church's condemnation, swift and sure, leaving a monument as striking as Babel's Tower on the plains of Shinar and of the supreme folly of building in opposition to the Almighty."

Longshoremen's Strike.

NEW YORK, Jan. 25.—The longshoremen have made up their minds that they have got to fight hard in order to win the Old Dominion strike, and are preparing to do it. The executive board of the Ocean association will not say what course will be pursued, but from other sources it was learned yesterday that it had been definitely settled that action similar to that taken in the case of the French and Anchor lines will be taken with all the other steamship lines who insist from any cause whatever in handling Old Dominion freight. Some of the more hopeful of the men believe that the affair can be arranged with other companies without need of a general strike, but the majority think that in a few days the whole North river front will be "tied up."

A largely attended meeting of the East River longshoremen was held yesterday at No. 10 South street to discuss the Old Dominion strike. The feeling of the men was strongly in sympathy with the strikers and a resolution was adopted promising them moral and financial aid. A strike was ordered, but the men were granted the privilege of striking against any line or vessel that handles Old Dominion freight, and the chances are that many of the East River longshoremen will be on a strike before long. Much of the time of the meeting yesterday was taken up in the election of a beach walker.

The boycott of the Old Dominion company in the south is being pushed, and the Ku-Klux of Labor are refusing to trade with anybody who either sends or receives freight by that line. Police Superintendent Murray, and Police Commissioner Voight, as well as Police Inspector Byrnes, held a consultation at a police headquarters yesterday, and discussed the aspect of the expected strike of the longshoremen to-day, with a view of making police arrangements to meet any trouble that might arise. Capt. Gastline, of the steamboat squad, will have eighty more men placed at his disposal to-day. This makes 150 extra men who will patrol the river front.

The Pinkertons Denounced.

COATESVILLE, Pa., Jan. 25.—The situation of the strike at the iron works of Charles Huston & Sons and Worth Brothers has assumed a different aspect during the past few days. On Saturday evening several Pinkerton detectives arrived and went to the works of Worth Brothers, where it is expected an attempt will be made to resume to-day. When approached on the streets they pointed revolvers at the citizens who attempted to speak to them. Every train is being watched closely to see that nobody comes to take the situations offered at the mills.

All day yesterday the streets were filled with men, and an indignation meeting of the citizens was called at the old Town Hall. That hall would not hold half the people, and all went to Market hall, where 700 men cheered at the stirring speeches made by prominent citizens. Resolutions were adopted expressing great indignation at the course of Worth Brothers in hiring irresponsible parties to inflame the people of the borough and vicinity, and requesting the burgess and council to appoint such officers as in their judgment they deem necessary to preserve the peace. They also requested the burgess to forbid any of the so-called detectives from appearing on the streets as officers of the law. One of the speakers denounced Pinkerton thugs as the offals of prisons, the scum of the cities, and men who are too lazy to work if they got it. A boarding house has been fitted up at the mill to accommodate the "black sheep."

The Coal Strike in New York.

NEW YORK, Jan. 25.—It was reported as long ago as Friday, but apparently without much foundation, that James E. Quinn, the master workman of District Assembly 49, had telegraphed from Philadelphia with reference to the coal strike that on Monday morning all the men in the coal mines and on the coal wharves, and Knights of Labor on the railroads would suspend operations. The rum or could not be traced to a responsible source then. However, a Conservative Knight of Labor said that something or other of that kind is going on, but he could not tell exactly what. This resolution, presented by the International Boatmen's union, was adopted by the Central Labor union Sunday.

"That the necessity of the situation with the scarcity of coal demands that some action should be taken to protect families of the

poor, therefore be it resolved, That all retail coal dealers are requested to keep the stock now on hand for family use and sell no coal to steam users, stores or manufacturers until the strike is over."

Trouble in Cuba.

TAMPA, Fla., Jan. 25.—It was reported last night that the three Cubans arrested for shooting the American Knight of Labor Friday had been taken from prison and lynched. The report is not yet confirmed. Further trouble between the two factions of cigar-makers is feared.

TO ABOLISH HANGING.

The Work of the Empire State Capital Unishment Commission.

BUFFALO, N. Y., Jan. 25.—The report of the capital punishment commission will be presented to the legislature on Tuesday next. Mr. Geary, who has been in Europe for some time, called his colleagues that in case he could not return in time to confer with them they should make a preliminary report and ask for further time.

Dr. Southwick, of this city, another member of the commission, left on Albany Saturday to meet Mr. Matthew Hale, the third member. Before his departure Dr. Southwick was asked what the result of the commission's labor would be. He replied: "The weight of opinions expressed in the replies received by the commission in the circular sent out to prominent lawyers, judges and others in the state, asking their views on the subject, is against hanging and in favor of electivity. The report, therefore, will be in favor of the adoption of some electrical apparatus for executions. That is the end toward which I have been working for six years, and if the report of our commission does not culminate in the passage of a bill abolishing hanging, I shall begin to think that I have been working in vain. I have noticed that the bill introduced in our legislature last year was copied in Paris, and a similar one was introduced by a Frenchman in the legislative body of France. Germany has taken up the question, and I have just read that in New Jersey attention has been called to our agitation of the matter. I wish that the Empire state would take the initiative in this step toward a broad humanity. The only argument that can be brought in favor of hanging is that of its deterrent effect, but I maintain that a public death would have just the same influence upon society if it were accomplished in secret. The prisoner will be confined in a state prison and removed from life painlessly and secretly, without the burrah and sensation that attends a hanging."

MIAMI VALLEY WHEAT.

The Outlook to Date is Favorable—Other Grains Equally Fortunate.

HAMILTON, O., Jan. 25.—The area of wheat in the ten counties of the Miami Valley districts, of which Montgomery county is the center, is about 435,000 acres, which with an average yield (fifteen bushels per acre) will produce six and a half million bushels. Seeding was accomplished under the most favorable conditions of soil and weather, and with continued mill output, the young wheat rooter until the start of a thrifty growth and color, and very little appearance of fly. There had been a good covering of snow until the middle of January, when an icy crisis came. Reports to your correspondent from various parts of the district show that this recent freeze and thaw injured the wheat very little, farmers being generally of the opinion that air under the ice saved the roots from pulling.

Equally as favorable reports come from all barley of which there is a seeding of about 35,000 acres in the ten counties of this district which with an average yield of thirty bushels per acre, will produce 1,000,000 bushels of grain. The seeding was done under as favorable conditions as prevailed through wheat sowing, and the stand now bids for a good start in the spring. There is no old barley in the hands of raisers; but considerable quantities of 1886 wheat is held for higher prices. Much corn was hauled in over the good roads, but there was little temptation for the farmers to let go their wheat.

Killing Revenue Informers.

CANTON, Ga., Jan. 25.—Information has been received at this place to the effect that on Wednesday night five men in an ambush fired upon Andy Howard, of Yellowstone Creek, wounding him in the leg. The men then rushed upon Howard and stamped him so badly that his bowels protruded, and death ensued in twenty-four hours. Howard had been a revenue informer, and was then a witness in the United States courts against several of his neighbors, and suspicion rested against certain men who have been engaged in blockading, as the guilty ones. A party of disguised men fell upon another revenue informer and cut him up badly, but he is living. The men said they intended killing Howard, and did it. He leaves six children all under eleven years of age, all of whom he gave to his neighbors before his death. His wife is dead.

Indiana's Deadlock Unbroken.

INDIANAPOLIS, Ind., Jan. 25.—Representative Osborn, Republican, and Worrall, Democrat, were the only absentees at the joint convention to-day. These were paired, leaving necessary to a choice seventy-five. The hall of the senate developed no changes, Turpie receiving thirty-two and Harrison eighteen votes. The house gave Harrison 51, Turpie 42 and Allen 4, thus continuing the deadlock. Robinson's vote was cast in a firm voice for Allen, and Knights of Labor say he will stand by their candidate throughout the session. The convention adjourned after one ballot.

Davitt in New York.

NEW YORK, Jan. 25.—Ten thousand persons gathered in Madison Square garden last night in compliment to Michael Davitt and his bride. Patrick Ford presided. Davitt made a long address, in which he praised Dr. McGlynn, but advised him to go to Rome and in person explain his views of George's land theories.

Local Option Clause Unconstitutional.

TOLEDO, O., Jan. 25.—The first case in Ohio tried to test the local option clause of the Dow law was decided by Judge Pike to-day. The saloon keepers of Watervliet asked the court to enjoin the trustees of the town from enforcing that clause of the law. To-day the court declared the clause unconstitutional and issued the injunction. The case will be appealed.

PERILOUS LEAP FOR LIFE.

A MAN JUMPS FROM A THIRD STORY WINDOW.

Great Heroism of a Janitor—He Rescues a Woman—Two Perilous Trips Up a Burning Staircase—Spectators Show Great Presence of Mind.

CINCINNATI, Jan. 25.—Early morning pedestrians, as they passed through Fourth street, between Walnut and Maine, shortly before 7 o'clock, were treated to a most thrilling occurrence. Their attention was first attracted to the real estate office of Robert J. Cresap, at No. 18 West Fourth, by the clouds of smoke that rolled from the door and windows. As they looked a bare-headed man dashed from the fiery interior into the street. In his arms he bore the half fainting form of a woman. Calling on those to take charge of her, he turned and sprang back into the burning building.

The crowd stood agape, as it seemed almost certain death. After a moment had passed a window of the third floor was flung up and two men were seen struggling amid the smoke. One was the man who had rescued the woman. The other could not be recognized. With a powerful effort the rescuer was thrown off and a terror-stricken man dressed in his night attire, crawled out the window and hung from the sill.

The situation was painful and many turned away. But there were cool heads among those present. With rare presence of mind two brave men sprang forward and seized a board used to hold printed advertisements. Standing under the clinging figure they shouted, "Drop!" The desperate man looked from side to side as if for relief and then released his grasp. As he shot down a convulsive shudder went through the crowd.

With a crash the falling man struck the iron awning frame. For an instant he seemed to rest. Quick as a flash the men with the board sprang directly beneath the falling framework and caught the unfortunate man as he whirled over and dropped to the sidewalk. He was received directly on the board, but his weight and the impetus acquired by the fall tore it from their hands, allowing him to strike the pavement. As they lifted him from the sidewalk the man who had so bravely attempted to save him again emerged from the blinding smoke that filled the building perfectly unharmed.

In a moment the situation was explained. The man who had leaped from the window was Robert J. Cresap, the well-known auctioneer and real estate broker; the rescued woman was his wife, a bride of three months, and the rescuer was Frank C. Frazer, the janitor. Mr. Cresap and his wife were surprised in bed by a sudden fire, and the former had lost his presence of mind. The fire began on the second floor, immediately beneath Mr. Cresap's apartments, and originated in the catching fire of a wooden partition from a heated stovepipe which passed through a small opening in it.

Frazer had just built the fire in it, and was engaged downstairs in the lower office when he smelled smoke. Running upstairs he saw that the staircase leading to Mr. Cresap's rooms were on fire, and burning briskly. Realizing the danger and the necessity for prompt action, he sprang up the burning staircase and into the bedroom. Here he found that Mrs. Cresap had arisen, but was but partially dressed. He seized her and dashed downstairs, with the intention of returning for Mr. Cresap. When he returned that gentleman had left his bed, but was perfectly frantic. Frazer seized him, but the night shirt he was grasping gave way, and Cresap made for the window. He then turned and saved himself.

Mr. Cresap and his wife were taken to the Good Samaritan hospital. Here Mr. Cresap's injuries were found to consist of a badly jarred system, and a sprained back and arm. His hip, where it had come in contact with the awning, was badly bruised. His injuries will confine him to his room at least a week.

But for the awning and the board breaking the force of his descent, Mr. Cresap would undoubtedly have sustained fatal injuries. He has been occupying the present quarters over his office about three months, having given up his suburban residence on Walnut Hills.

At noon Mr. Cresap was in great pain and his back was hurting him badly. It is now feared that his spine has been injured. If this is the case the worst results may be expected.

His wife was suffering from a nervous shock, but was in other respects unharmed. The hero of the thrilling affair was, of course, the janitor. He was warmly congratulated on his bravery, and received his honors very modestly.

The building in which the fire occurred is badly scorched and charred. In addition to Mr. Cresap, James H. Wallace, the Campbell Creek Coal company, and Brasher & Wuelkott, surveyors, occupy desks on the lower floor. The loss in aggregate will amount to between \$1,200 and \$1,500. All the valuable papers were in the safe.

Swore He Would Kill Him and Did.

LITTLE ROCK, Ark., Jan. 25.—Advice from Calhoun county say that a negro desperado, thought to be Louis Simpson, was killed twenty miles east of Hampton, Saturday. The negro was chased by two men, and had taken refuge in a deserted hut, where he kept his pursuers at bay for hours. The men at length set fire to the hut, and when the negro ran out of the flames called on him to surrender. He refused, and was riddled with bullets. In 1885 Simpson was sentenced to ten years imprisonment for murder. The chief witness against him was a negro named Copeland, and Simpson swore he would kill him. Two years after, Copeland, who was a member of the police force of this city, was found dead, having been shot. Investigation showed that Simpson, who was working on a contract outside the prison, had killed Copeland and escaped.

Hiscock Was Once a Democrat.

ALBANY, N. Y., Jan. 25.—The papers here this morning bring to light the fact that Senator-elect Frank S. Hiscock was once a Democrat, and supported Horace Greeley for the presidency in 1872. In the following year he ran for congress on the Democratic ticket, receiving 13,283 votes against 15,457 for R. H. Duell, the Republican candidate.

WEEKLY CROP SUMMARY.

A General Report of the Condition of Wheat at the Present Time.

CHICAGO, Jan. 25.—The following crop summary will appear in this week's issue of the Farmers' Review: The heavy rain which set in on the night of January 21 prevailed throughout nearly the entire winter wheat belt, and resulted in laying bare wheat fields over large areas. Without second covering of snow the crop is in a certain amount of peril, but up to the close of January 23 the correspondents have made no returns of resulting damage. The wheat reports from Ohio, Indiana and Michigan continue to be almost uniformly favorable, the latest returns showing that the fields have been amply protected up to the approach of mid-winter rainstorm, and that the grain was looking well.

The reports from Missouri and Illinois are not uniformly favorable, some of the southern Illinois and some of the western Missouri counties reporting an unfavorable outlook. The returns from Butler, Chautauque, Cherokee, Johnson, Lyon, Pottawatomie, Saline and Wallace counties in that state show that fields are not protected and that the grain is looking poorly. Clark, Clay, Dallas, Delavan, Harrison, Jones, Muscatine and Warren counties of Iowa are importing corn at 33¢40 cents per bushel.

CHARGED WITH POISONING.

Strong Circumstantial Evidence Developed Against Lawrence Krug.

CHICAGO, Jan. 25.—It is now certain that Lucy Heidelmeier was poisoned. Professor Haines, of the Russ Medical college, has completed a chemical knowledge of her stomach. He found traces of arsenic in every vital part. It was administered in such liberal quantities that the only wonder is that the girl lived as long as she did. Capt. Schack has also ascertained that Lawrence Krug, the girl's stepfather, who is being held to await the result of the investigation, lived for a long time with a celebrated chemist in Germany, and there gained an extensive knowledge of the deadly qualities of the various poisons.

Saturday Professor Haines began an analysis of the remains of Krug's third wife, which was exhumed for that purpose last Thursday. The officers think they have a strong case of circumstantial evidence against Krug. The inquest on the stepdaughter will be commenced this week, and inquiry redoubled as to the four other deaths charged against Krug. He has authorized the sale of two houses belonging to him in order to raise money to defend himself in the criminal court.

Henry George Coming West.

CINCINNATI, Jan. 25.—It has been intimated that Henry George will not attend the February 23d convention here because he is opposed to the basis of representation. From private information received in this city it is known that Henry George is anxious to visit the west and deliver a few lectures. Such a tour will make friends for him and his paper—the Standard. From what can be learned he will time his journey west so as to reach our city during the convention, and perhaps address the grand assemblage, if the outlook is satisfactory to him. It is known that he would like to meet the distinguished labor leaders from all sections of the country, and the February convention is his great opportunity. While he declares himself out of politics, myriads of workmen look to him as their candidate for the presidency in 1888.

Sunday in Cincinnati.

CINCINNATI, Jan. 25.—In this city several bloody affrays occurred, in which the knife was used with deadly effect. Joseph Haferste, aged thirteen years, was stabbed in the face by George Schorr, aged eleven. Frederick Junginger, aged ten, became involved in a quarrel with William Smith, of the same age, and inflicted five dangerous wounds in the latter's side and abdomen with a pocket knife. Charles Barc was fatally cut while assisting to eject a gang of young toughs from a saloon. Stephen Price and Frank Apjones, both colored, quarreled about a woman, and the former received a severe cut on the arm.

A Slave to the Cocaine Habit.

CHICAGO, Jan. 25.—Last night a man whose peculiar actions attracted the attention of a policeman was brought into the East Chicago Avenue station, where he was identified as Dr. Bradley, the man who last summer created a sensation by experimenting on half of his family with cocaine, to which drug he is a slave. The doctor's condition is pitiable. His arms are covered with lacerations caused by the excessive use of the hypodermic syringe; the skin on his hands has almost turned black, and his features plainly show the frightful effects of the drug.

Peculiar Railroad Accident.

MT. VERNON, O., Jan. 25.—As a C. & C. through freight was passing through a cut composed of an irregular mass of rock thirty-five feet high, a rock weighing several tons fell without warning, smashing the cab into smithereens and pinning two stock cars to the earth. No one was hurt, for a wonder. The train men liberated the cattle with axes. The wrecking train in approaching the scene ran into two steers and was derailed, and two men thrown nearly sixty feet. They were slightly buried. The loss on rolling stock will reach \$5,000.

Warner Miller's Followers.

ALBANY, N. Y., Jan. 25.—The followers of Warner Miller have felt very sour since the defeat of their chief for re-election assessor, and charges of broken promises are numerous. The papers this morning publish the draft of a pledge signed by a number of the Republican members to support Miller as long as he was a candidate. Some of them backslided, and made Hiscock's nomination possible. Interesting developments are expected.

Cablek Children Improving.

CLEVELAND, O., Jan. 25.—The two Cablek children, who were so fearfully hacked up by their insane mother, are improving. Crowds of people visit the hospital and beg leave to look at the wounds made by the shears, but they are quickly bounced.

Boring for Gas and Oil at Toledo.

TOLEDO, O., Jan. 25.—A syndicate of eastern capitalists have leased a strip of land twenty miles long and a mile wide near here and will begin boring for gas and oil immediately.

TUESDAY EVENING, JAN. 25, 1887.

Two Egotists.

The two egotists who do all the writing for the Republican devote nearly a column of their last issue to a criticism of the BULLETIN's editorials. They become sarcastic and ironical, and their article creates the impression that the conceited asses imagine they are the only two individuals in town with the ability to edit a paper. In the presence of their brilliant genius (?), of course we realize our own insignificance and weakness. It would be strange, indeed, did we not. We are almost led to prostrate ourselves in the dust before the awful presence of their towering minds, but we will try to refrain from doing so, just at present.

We haven't any apology to offer for the articles that attracted the special attention and criticism of the two egotists, simply for the reason that none is necessary. We make no pretensions to ability and all that,--Messrs. Thomas A. Davis and J. Hartshorne Hill are the only able newspaper men in town,--but in order to show that the articles referred to are not so very deserving of our contemporary's ridicule and sarcasm, we give a few comparisons:

The United States Senate passed the Interstate Commerce bill to-day with a bill last night. Vote 48 to 15. BULLETIN.

The canal coal fields in Breathitt County are pronounced the richest in the world. BULLETIN.

The entire absence of anything brilliant in the Times and Commercial Gazette's editorials must be attributed to the fact that they haven't on their staff two such "brilliant journalists" (?) as are at the head of the Republican. We suggest to Mr. Halstead that he at once discharge Romeo Reed and employ Mr. T. A. D. or J. Hartshorne Hill.

Let us carry the comparison further. In the following are two clippings from the BULLETIN that seemed to attract the special ridicule of these two intellectual giants. Their sarcasm was poured out in extravagant quantities, all because these two notices had found their way into the editorial columns of the BULLETIN:

Dr. F. A. Davis is now managing editor of the Kentucky Bulletin, Messrs. Gould and Zimmerman having retired. BULLETIN.

The Kentucky Bulletin, of Newport, Nebr., has been victimized by one of its hired solicitors. BULLETIN.

What a brilliant thought it was in our egotistical contemporary to allude to the "solicitor and collector" as a rascally fellow. Who ever heard of a "solicitor and collector" who got away with his employer's cash as being anything else but a rascal? There may become swindlers who are not rascally in their nature, but the fellow who victimized Brother Maxon isn't one of them evidently, else Mr. Davis or Mr. Hill would never have spoken of him in the way they did. They probably wanted their readers to know that this swindler wasn't an honest fellow, but a rascally individual. And then what a brilliant thought it was in them to add: "This may account for the withdrawal of two out of three of the editors of that paper." The entire absence of anything "able" or brilliant in the above editorial from the Republican leads us to believe that it wasn't penned by these two intellectual giants, but that it was gotten up by the Republican's devil and slipped into the paper unbeknownst to the late "sole owner" and his recent acquisition from Louisville.

Throwing stones at other people's glass houses isn't a paying business, when a fellow has a glass house of his own.

Services at the First Baptist Church.

The pulpit at the court house Sunday was again filled by Rev. J. G. Bow. The sermon in the morning from Hebrews 4th, and 9th, "There Remaineth therefore a Rest for the People of God," was a great incentive to christian activity. There was one addition at the close of the sermon. At night the house was crowded, chairs in the aisles and many turned away. The service opened with "Arise and Shine." May God's people continue to sing "Arise and Shine" till the "Day Star" shall arise in every heart. The duet "Heavenly Love," sung by Mrs. Julia Pearce Cummings and Mr. Will Southernland was truly a foretaste of heavenly love, while Miss Lottie McDaniel's solo, "Resignation," was the breathings of a soul filled with submission and love to a Heavenly Father, expressed in song. Mr. Knoll's solo was fine in the extreme, and just a word here to those who do not think instrumental solos just the thing in church. If there is not something inspiring in instrumental music, why do they have martial music when marching to battle, or play the Star Spangled Banner on the Fourth of July occasions? The bible says "praise the Lord on the cornet," and we are sorry indeed that we can not have Mr. Knoll longer to join us in praising him.

WASHINGTON DISPATCHES.

An Amendment to the Pacific Funding Bill--Other Capital News.

WASHINGTON, Jan. 25.--Mr. Outhwaite, a member of the house committee on Pacific railroads, has prepared an amendment to the Pacific funding bill which will be offered when the measure comes up for consideration. The amendment fixes the rate of interest at a decimal over 3 per cent. It is seen by the response of the secretary of the treasury to the resolution, as to the effect of the house bill, that the interest fixed by the bill is a fraction less than 3 per cent.

Telephone Talk.

WASHINGTON, Jan. 25.--This week promises to be a lively one in telephone circles. Arguments will be heard from all of the companies claiming to have telephone inventions which are not infringements of the Bell patents. The integrity of the patent issued to the Bell company will also be attacked. A number of distinguished counsel who will make arguments during the week are already here and more are expected.

Trade Dollars.

WASHINGTON, Jan. 25.--The friends of trade dollar redemption are endeavoring to bring about a reconciliation among members of the house coinage committee. While the present division continues they believe Messrs. Bland and Lapham will prevent consideration of the bill.

New Public Buildings.

WASHINGTON, Jan. 25.--The house committee on public buildings and grounds has agreed to report bills increasing the appropriations for public buildings at Winona, Minn., from \$100,000 to \$125,000, and at Harrisonburg, Va., from \$50,000 to \$90,000.

Calling in the Three Per Cent. Bonds. WASHINGTON, Jan. 25.--The bond call on Saturday of \$15,000,000, leaves only forty millions of three per cent. bonds outstanding. It is Secretary Manning's purpose to call these in four calls as rapidly as the revenues permit.

The Interstate Commerce Bill.

WASHINGTON, Jan. 25.--Owing to its length and delay in engrossing the interstate commerce bill has not yet been laid before the president for his action.

Refunding Taxes.

WASHINGTON, Jan. 25.--The senate finance committee expects to-morrow to pass upon the bill to refund \$20,000,000 of direct taxes to the states.

Ice Gorge in the Maumee.

TOLEDO, Jan. 25.--The warm weather last week started the ice in the Maumee Saturday, about fifteen miles above the city. No fear was felt till yesterday afternoon, when the river broke up and the ice started rapidly. It gorged last night and the water rose eight feet. The ice started again early this morning and took away the approaches to the Pennsylvania and Union bridge. The Wheeling & Lake Erie bridge was rendered useless, and the lumber district and the Lake Shore and Cincinnati, Hamilton & Dayton freight yards are cut off. One tug broke loose, but was not damaged. There is a tremendous gorge at Rock Bar, eight miles up, where the ice is piled up twenty-seven feet and more ice coming down. This is liable to give away, and when it does all the bridge will be swept away and the lower streets and flats flooded.

Terrific Boiler Explosion.

PITTSBURG, Jan. 25.--One of the boilers at Spang's iron mill, at Sharpsburg, six miles from this city, exploded at 5 o'clock this morning, instantly killing the fireman, James Patterson, fatally burning an unknown tramp who was sleeping in the boiler room, and seriously injuring six mill employees who had just arrived to begin their day's work. A portion of the boiler was thrown over 200 feet. The entire end of the mill was blown out and the building so shattered that it will probably fall. The cause of the explosion will be investigated. Another employee was badly burned in shutting off the natural gas, with which the mill was supplied. Had the accident occurred a few minutes later the loss of life would have been terrible, as all the employees would have then been at work.

Disruption Under the Empire.

A Paris head waiter thus unbosomed himself to a journalist during the wild orgies under the empire, when the Cafe Anglais and the Maison Dorée never closed their doors from year's end to year's end:

"One 'set' never lasts more than five years; in fact, you'd be surprised how rapidly the 'high livers' and 'thinners' succeed each other. The last lot were wound up in six months. The Vicomte de Talleyrand died after marrying a chit of a girl to whom he insisted on giving his name. His family opposed the match and the consequent grief and vexation killed him. Baron d'Auriol soon went the journey. He poured so much wine down his throat that the waiters said he died of inflammation of the Bordeaux.' M. le Comte de Z--- is now an assistant at a wayside railroad station in the south of France. M. Raoul de M--- enlisted; he's in Africa. The Marquis de T---, utterly ruined, plays the horn in a concert garden at Rheims at three francs a night. A few days ago M. de Saint Lahire's 'set' took possession of No. 16. There are ten of them who will manage to live on the young heirs from Brittany and Anjou who come to Paris to spend their fortunes. Then the whole lot will go by the board, as so many have gone before them. Others will take their places and so the game will go on until the next revolution."

And the waiter added: "Out of every ten of these roysterers two will shoot themselves, four will die completely used up, three will land in prison and the tenth will go to work and become a respectable citizen."

"And how about the women?"

"Oh! we've had the same women for the last twenty years!"--Paris Cor. New York Graphic.

There is a run on what are called "common sense shoes" in New York, and half the adult ladies and more than half the young ones are wearing them. But they are common sense only as to their heels. They have pointed corns producing toes and narrow soles. The leading dressmakers and shopkeepers in town who have been interviewed about other common sense garments, such as the chemise, the skirt suspender and all other much talked of improvements in the dress of suffering woman all declare that there is no sale for these garments except to cranks, school misses and opera singers.

TUESDAY EVENING, JAN. 25, 1887.

LORD ULLIN'S DAUGHTER.

[Modernized and adapted to this latitude and time of the year, by Clarence L. Stanton.]

A young man to Ohio bound,
Cries "Boatman do not tarry,
And I'll give thee a silver dime
To row me o'er the ferry."

"Now how be you, would cross this stream,
This swift and muddy water?"
"Oh, I'm a gay young gamboller,
At Poker I'm a snorter."

Out spoke the hardy ferry man:
"I'll go, my boy, I'm ready;
It is not for your silver bright,
But your respected daddy."

"I here will say, my rooster gay,
In danger shall not tarry,
For though the storm is raging wild
I'll row thee o'er the ferry."

"Oh, haste thee, haste," the young man cries,
"Though tempest round us sporting,
I'll meet the raging of the skies,
But can't go Circuit Court'ing."

And as they sailed amid the roar
Of elements a fussing,
The Sheriff reached the ferry float
And stopped to do some cussing.

For sore dismayed, through storm and shade,
The young man did disclose,
His good right hand was stretched aloft
And wiggling from his nose.

"Come back, come back," the Sheriff cried,
Across the stormy river,
"And lend the jury-men your aid
The 'figger' to unkniver."

But vain, the loud waves lashed the shore,
And circumstance preventing,
He didn't come back worth a cent,
And he was left lamenting.

The Weather.

"Fair weather. Colder."

Snowflake corn, sugarpeas—Calhoun's.

MANY imitations, but no equal, has Dr.
Sage's Catarrh Remedy.

COAL oil. Guaranteed non-explosive.
Try it and you will use no other. At G.
W. Geisel's.

The sheriff and his deputies seem to
have become very unpopular with some
of the young men about town, to judge
from the way their company is shunned.

Some of the citizens are complaining of
the filthy condition of Third street, west
of the Lexington pike, and the city au-
thorities are asked not to neglect that
thoroughfare altogether.

Mr. R. G. SCRIGGS, contractor, re-
sumed work yesterday on the railroad. He
has a force of eighteen men grading east of
Kennedy's Creek, and twelve stone-ma-
sons at work on the bridge at that point.

An engraving entitled the "Personel of
the Famous Anarchist Trial at Chicago,"
and also one of the Irish members of the
British Parliament may be seen in the
show windows at Louis Zech's Red Cor-
ner Clothing House.

AFTER a test of over fifteen years there
can be little question as to the durability
of the celebrated Diamond lens specta-
cles, and while they preserve the sight
their lasting qualities are such as to make
frequent changing unnecessary. The
genuine are for sale by Ballenger.

Dr. W. G. McDOWELL, of Cincinnati,
the renowned specialist in the treatment
of piles and all rectal diseases, is now in
the city, and will remain until Wednes-
day evening. We take pleasure in re-
commending the doctor to all who are
afflicted in this way. Those of our citi-
zens already cured by him are a sufficient
guarantee of his ability as a specialist.
The doctor is stopping at the European
Hotel.

Hickman vs. Tudor.

Opinion of the court by Chief Justice
Pryor, remanding to Superior Court upon
motion of appellant:
First—Appellant sued for more than
\$2,000. The Circuit Court, upon final
hearing, dismissed his petition. He ap-
pealed to the Superior Court, and that
court reversed the judgment, directing
the Circuit Court to render judgment for
the appellant for a certain amount, less
than \$2,000. The Superior Court grant-
ed the appellee an appeal to this court,
not certifying that the questions involved
are novel and important.

Held—That the amount of the judg-
ment directed by the Superior Court to be
rendered against appellee is the amount
in controversy, as to him, and that
amount being less than \$2,000, this court
has no jurisdiction of the appeal.

Second—This court, not having juris-
diction of an appeal from the Superior
Court, will not entertain a motion by the
appellee to dismiss the appeal from the
judgment of the Circuit Court.
Thomas R. Phister, W. H. Gord, Rich-
ards & Hines for appellant; Wadsworth
& Son for appellee.

BRIDGET RAY.

Death of Benedict Kirk.

Mr. Benedict Kirk died at his home
near this city last evening at half past 7
o'clock after an illness of about ten days
from flux. But few of his friends were
aware of his sickness. The deceased was
one of the oldest citizens of this county
and was widely known. He was a na-
tive of Frederick County, Maryland, and
was in the 79th year of his age, having
been born in November, 1809. He landed
in this city in early life and made Mason
County his home from that on to his
death. Seven children—six sons and one
daughter—are left to mourn his death.
The funeral services will be held in the
Christian Church at Washington to-
morrow morning at 10 o'clock, after which
the remains will be interred in the fam-
ily burying ground at James Kirk's.

Loss of Flesh and Strength,
with poor appetite, and perhaps light
cough in morning, or on first lying down
at night, should be looked to in time.
Persons afflicted with consumption are
proverbially unconscious of their real
state. Most cases commence with dis-
ordered liver, leading to bad digestion
and imperfect assimilation of food—
hence the emaciation, or wasting of the
flesh. It is a form of scrofulous disease,
and is curable by the use of that greatest
of all blood-cleansing, anti-bilious and
invigorating compounds, known as Dr.
Pierce's "Golden Medical Discovery."

An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill.,
says: "Having received so much benefit
from Electric Bitters, I feel it my duty to
let suffering humanity know it. Have
had a running sore on my leg for eight
years; my doctors told me I would have
to have the bone scraped or leg amputated.
I used, instead, three bottles of
Electric Bitters and seven boxes Buck-
len's Arnica Salve, and my leg is now
sound and well."

Electric Bitters are sold at fifty cents a
bottle, and Bucklen's Arnica Salve at
25c per box by J. C. Peacor & Co., and S.
P. Campbell & Co., of Aberdeen Ohio.

PLANS WHICH GIVE AUSTRIA A MILION MORE SOLDIERS.

A Plea for the German Government Made at Hanover—Buried in Solid Rock—Still Fighting in Tonquin—Hopes of a Liberal Union—Other Foreign Affairs.

VIENNA, Jan. 25.—It is estimated that the landsturm would supply 1,000,000 additional men to the army. The regulation appended to the decree relative to the landsturm directs that if the men are summoned before uniforms are received they must wear insignia consisting of yellow and black arm bands and bearing the number of the regiment to which they belong.

It is further ordered that each man must provide himself with a metal case in which to keep papers by which he may be identified. Men wearing their own clothes shall be allowed ten kreuzers daily. These instructions to the Landsturm are regarded as indications of an early campaign and cause disquietude.

Buried in Solid Rock.

LONDON, Jan. 25.—A funeral of remarkable character is reported from Hawes, in North Yorkshire. The deceased was a Mr. J. S. Broderick, a well-known and wealthy follower of Episcopacy. He believed in the transmigration of souls, and in his dying moments gave instructions that no minister should attend his funeral and that there should be no religious ceremonies of any kind. The interment took place in his own lands, on the top of a hill. To reach the place the cortege had to pass over a portion of the Pennine range of hills, and as the road was blocked in places by snowdrifts over twelve feet deep, the mourners had a dreary and difficult task. The immediate place of sepulchre was very rocky. It had been chosen by the deceased and blasting operations had to be carried on for two days and nights to complete the grave, which was forty feet below the surface in the solid rock.

A Plea for Germany.

BERLIN, Jan. 25.—Herr Benningsen addressed several thousand National Liberals at Hanover yesterday. He urged that the passage of the Septennate bill was the only means of avoiding war. He declined to admit the assumption that the government might use a majority to force monopolies on the country. Resolutions in favor of co-operation with the Conservatives were unanimously adopted.

The Berlin Zeitung urges the German government to allay the war scares, which are alarming the commercial world.

A Panic in London.

LONDON, Jan. 25.—There has been a semi-panic in the stock market this afternoon in consequence of the unfavorable aspect of the political situation. Consols for money closed to-day at 100 7-16, a decline of 1/16 from the closing quotations Saturday. The quotation at to-day's close for the account was 100 9-16, a fall of 5-16 from Saturday.

A Shipwrecked Crew Saved.

LONDON, Jan. 25.—The Allen line steamer Prussian, from Boston, January 11, for Glasgow, has arrived at Greenock, where she landed the crew of the British steamer Nettuno, which was abandoned while on a voyage from Sunderland to Baltimore. When the Nettuno was abandoned her rudder and stern post were gone.

A Tramped Up Story.

PARIS, Jan. 25.—Meyer, the alleged German spy, who escaped at the time of the capture of his two companions at Lyons, has been arrested. All three insist that the soldier who accuses them trumped up the story that they tried to bribe him to obtain for them one of the new French repeating rifles.

Negotiations Still Pending.

LONDON, Jan. 25.—The Standard says that in the agreement with the Vatican now in process of negotiation Prussia assents to the return of members of all religious orders except the Jesuits, who were exiled by the imperial law. Regarding other points the negotiations are still pending.

Hopes of a Liberal Reunion.

LONDON, Jan. 25.—The Daily News says the recent speeches of Mr. Chamberlain and Sir George Otto Trevelyan have cleared the political atmosphere and brought hopes of a Liberal reunion within measurable distance of fulfillment.

Governor of Crete Recalled.

LONDON, Jan. 25.—Turkey has recalled the governor of Crete, owing to the opposition of the people to his administration, and has appointed Anthopolis Effendi, a more popular man, to replace him.

Still Fighting in Tonquin.

PARIS, Jan. 25.—A dispatch from Tonquin says that Col. Brissaud has carried the rebel position at Mikas Than-Hoa and that 500 insurgents were killed. The French were pursuing the rebels.

Trouble in the Canadian Cabinet.

OTTAWA, Ont., Jan. 25.—Quite a sensation has been caused here by a rumor to the effect that the recent disturbances in the cabinet were due to Sir John A. MacDonald's overbearing temper, which, it is alleged, has much increased of late years. It is even darkly hinted that the premier, with increasing age, is losing the balance of his mind, and that this has been manifested on various occasions, but more particularly in the privy council. Some of the cabinet meetings have, it is alleged, been most stormy and a climax was reached when Sir John McDonald and Sir Charles Tupper, the high commissioner for Canada, shook their fists in each other's faces. Sir Charles also has a hot temper, and this incident is reported to have occurred just prior to his recent visit to England. Another alleged proof is that the premier's vanity has increased to an almost ridiculous extent of late, and that the recent defeat of his party in the provincial elections in Ontario, after his strenuous personal efforts recoiled upon him with redoubled force. The report which has been published in several Canadian papers has caused considerable public alarm.

A High Priced Book.

Mr. Bernard Quaritch, the London book seller, offers for sale a perfect copy of the "Psalterium" of Johann Fust and Peter Schoeffer, bearing date August 29, 1459. It is the second book printed with a date, and, according to Mr. Quaritch, "the grandest work ever produced by typography." The Mazarine Bible is comparatively a common book by the side of it. The price asked for this literary treasure, which comprises only 136 leaves, is 5,000 guineas, or \$26,250.

POINTED PARAGRAPHS.

Topics of the Times Given in a terse and spicy manner.

Sir John A. Macdonald, Canadian premier, is reported on the verge of insanity.

Mrs. Van Zandt and Nina will go to Paris until Spies' case is finally disposed of.

Texas legislature passed a law prohibiting officers, except sheriffs, from accepting railroad passes.

Incendiaries fired the Allen hotel, Chicago. The saloon was gutted and a panic narrowly averted.

Rev. L. L. Luse, of the Erie, Pa., Methodist church, is under arrest for forgery committed in Nebraska.

Wheat crops of the west are in peril. The rain has washed away the snow, and a freeze up will be disastrous.

Lord Doneraile and his coachman, of Cork, were bitten by a rabid dog. They will be treated by M. Pasteur.

Engineer Hursicker and Fireman Gray were killed by the explosion of a locomotive boiler, near Hawthorne, Ill.

A gang of desperadoes captured a train near Gordon, Tex., forced an entrance into the express car, and robbed the safe.

The remains of John J. Upchurch, the founder of the Ancient Order of United Workmen, were buried at St. Louis Sunday.

An eighteen-year-old Indian boy, named Seabron, was arrested at Eufaula, Indian Territory, for the murder of three white men.

The body of William Duffy, two months missing from Wheeling, was found in a sand bank. He was buried by a cave-in while drunk.

Rev. William G. Eliot, D.D., chancellor of the Washington university at St. Louis, died at Pass Christian, aged seventy-five years.

The funeral of the wife of Senator Voorhees took place in Washington Sunday, and the remains were taken to Terre Haute, Ind., for interment.

Ada Tyler, unfaithful wife of a hard-working mechanic, Lynn, Mass., while drunk quarreled with her mulatta lover, Sam Mitchell, and was murdered. Mitchell tried to commit suicide. He is in jail.

Blanche Farrell, aged ten, and her sister, Bertha, aged four years, of Niagara Falls, fell into a sewer which runs swiftly for a quarter of a mile under the city, emptying into the Niagara just above the whirlpool. A party of men rushed to the other end just in time to rescue the girls. They were still alive, but unconscious.
